

THE DAILY JOURNAL

It is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, having a general circulation throughout the State, and is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those at the Comstock.

SENATORIAL REMINISCENCES

A Washington correspondent, taking a retrospective glance at the United States Senate, says: Of the forty-eight Senators who were present on the 4th of March, 1861, twenty-one are no more. The names of the departed are Sumner and Wilson, Kennedy and Pierce, of Maryland; Hale, of New Hampshire; King and Harris, of New York; Douglas, of Illinois; Fessenden, of Maine; Johnson, of Tennessee; Baker, of Oregon; Powell, of Kentucky; Bayard, of Delaware; Simmons, of Rhode Island; Thompson, of New Jersey; Grimes, of Iowa, and Durkee, of Wisconsin. Some of these Senators exercised a powerful influence over the war legislation of the Rebellion, one became President, another Vice President, another Chief Justice, and another was shot down in action, dying that the Republic might live. Only one Senator who answered to his name on the 4th of March, 1861, has been a continuous member of the body, and that is Hon. Henry B. Anthony, of Rhode Island.

MEXICAN VETERANS

The recently enacted law giving three months' extra pay to officers and soldiers, and to officers, seamen and marines employed in the war with Mexico, does not include those in the volunteer service who have already received three months' extra pay under the provisions of the act of July 19, 1848. The records of the Second Auditor's office show that at least ninety nine out of every hundred who were entitled under that law were paid the three months' extra pay at the time of discharge, or soon after, upon rolls prepared by Paymasters General or by settlement of claims in the Auditor's office. It will, therefore, be a useless expense for such persons or their attorneys to present claims that must be disallowed under the act of February 19, 1879. The claims of officers and soldiers of the regular army and of such of the volunteers as have not received the three months' extra pay should be presented to the Second Auditor, while those of the officers of the navy, seamen and marines should be sent to the Fourth Auditor.

Of the proposed election of Jefferson Davis to be United States Senator, Bruce's successor from Mississippi, the Vicksburg (Miss.) Herald speaks thus freely: "We believe that Jeff. Davis' election to the Senate would do more to strengthen the extreme radicals than any event that could happen. We believe it would injure his State and the whole South for years to come. It would almost certainly result in General Grant's election for the third time, something not likely to eventuate if the South acts with conservative political wisdom."

The navigation of the Hudson opens two weeks later than last year. The steamboating season bids fair to outrival that of many previous years, both in the elegance and number of boats and in competition in prices, both for passengers and freight. It is rumored that a large iron steamer, intended for night travel, is now building, which in elegance and outfit will excel any boat engaged in the Hudson river travel.

The Cleveland Herald suggests the following inscription for the coinplate of the Forty-fifth Congress: "Not one cent for legitimate Government expenses, but millions for hunting mare's nests."

The growing list of States that have adopted biennial sessions for their Legislatures will unquestionably be increased by Connecticut, which is to submit the question to a popular vote.

Military men will be interested in the text of the findings of the Reno Court of Inquiry. The accused officer is acquitted of all the charges against him.

OUR WASHINGTON LETTER.

WASHINGTON, March 6, 1879.

It is folly to deny possible abuses of power under the law conferring on the Executive the right to station troops at the polls in certain emergencies, or that the President might not prevent it to securing partisan advantages. The same may be said as to the possibilities under the statute creating Federal supervisors. But objections of similar or much more serious import may be urged against almost every law on the statute books. Nevertheless their propriety their absolute necessity is never seriously questioned save by the criminal classes marauders and freebooters against whose evils designs and practices they were especially intended to protect the law-abiding members of society. But one specific case of such perversion of the laws under consideration has been proven, though the country was ransacked to find it, and a partisan Committee was hurriedly packed off to New York, hoping that of the hundreds or thousands alleged against

**SUPERVISOR DAVENPORT**  
One might be found capable of substantiation. Both efforts were dismal, ignominious failures. In the face of the volume of false charges, of usurpation and arbitrary use of power written and spoken against Davenport in and out of Congress, the most that the Committee could find to report against him to their fellows waiting in Congress with the hope that its findings would afford some justification for and vindicate the revolutionary programme adhered to to the end, was that he (Davenport) being the instrument of a despotic law, should be abolished. However, conceding the fact of occasional instances of prostitution of the two laws in question to partisan ends or their abuse by tyrannical or incompetent military commanders, and supervisors, it is demonstrable that for every instance of the kind, thousands entitled to exercise that right have been encouraged to deposit their vote by the presence at the polls of a sufficient number of soldiers to insure their protection, who had otherwise refrained wholly from voting from the peril they would thereby have incurred to life and limb, saying nothing of other thousands bulldozed into voting with a party that they loathed. And it is as susceptible of proof that only the zeal and good judgment of Federal supervisors has prevented the legal and respectable voters of many of our large towns from being overhauled and overwhelmed by the army of bruisers and repeaters which Democracy has habitually organized from the residents of the back slums, to decide elections in favor of an unscrupulous minority. It is only this latter class who object to the soldiers and supervisors at the polls on election days. Ten of the twelve regular

**APPROPRIATION BILLS**  
were finally agreed to; two the army and Legislature, executive and judicial, containing "riders" to repeal the law allowing soldiers at the polls and abolishing election supervisors, failed thereby involving the necessity for an extra session. Among other bills of public importance signed by the President were the following: Bill reducing tax on tobacco and amending internal revenue laws Census bill; bill to aid refunding of natural debt by issue of small Treasury certificates; bill to prevent the introduction and spread of infectious and contagious diseases, and that providing for payment of arrears of pension under the late act. Total number of bills and joint resolutions introduced in the House during the session was 6,826; Senate, 1,936. Among those of more or less

**NATIONAL MOMENT**  
that failed besides the two appropriation bills named were: bill to regulate interstate commerce; "steamboat bill;" Geneva Award bill, postal saving bank bill; that to repeal specie resumption act; granting pensions to Mexican war survivors; "sugar bill;" that restricting Chinese emigration (by veto); bill to enforce the eight hour law; to transfer Indian affairs to War Department; Mississippi levees bill; to provide a commission for the improvement of the Mississippi; to extend a line for completion of Northern Pacific Railroad; to regulate transportation of animals by rail; Brazilian mail subsidy; to devote proceeds of sale of public lands to educational purposes; authorizing railroad companies to construct and maintain telegraph lines for commercial purposes; to revise patent laws, besides hundreds of private nature or only local importance. It seems the feeling that we are much more indebted to the Congress just ad-

judged for what they did not, rather than what they did do. Especially loud notes of gratification, are heard that the amateur financiers were held in check. It is the general sentiment that financially our situation is very satisfactory and will be better without than with Congressional interference. **LOGAN.**

A cargo of 600 Chinamen landed in San Francisco yesterday.

Eliza A. Whitney sued Joel P., her husband, for a divorce, in San Francisco. She got it and fifty thousand dollars.

**THE COMPROMISE**—The San Francisco Stock Report of Wednesday says: "We believe that the Suto tunnel difficulties will be finally adjusted at an early day. The differences between the negotiating parties are trifling and could be easily swept aside if the negotiators were ready for action. Probably the delay is occasioned by some question of mining stock manipulation."

As statements have appeared in a Southern paper that Wade Hampton, Jr., was present at the ball given to General Sherman at Jacksonville, Florida, the chivalric Southerner publishes a card denying it, and says "I would certainly have avoided meeting the man who was guilty of the cruelty of burning Columbia and the cowardice of denying it."

The editors of the Benton, Cal. Messenger and the Bodie, Cal. EKO COUNTY MINES.

S. F. Gulletta.

R. H. Brown, Secretary of a number of mines in Eko county, has prepared a statement showing the value of the mines up to February 1, 1879. There are seven claims in the list all of which have been incorporated since November, 1874. They are known as silver mines, with only a small percentage of gold. The difference between the gross value of the bars of bullion ready for shipment, and the net value of the same after deducting discount and expenses, is a noteworthy item, and is clearly drawn out in the aggregate yield of these mines in February 1, 1879 as follows:

	Gross Value.	Net Value.
Grand Prize.....	\$1,720,587	\$1,685,592
In dependence.....	849,767	222,621
Navajo.....	142,910	112,716
Argenta.....	5,947	4,856
Leopard.....	1,225,117	1,067,478
Indy.....	81,972	79,447
Eagle.....	34,100	34,759
Total.....	\$3,592,648	\$3,119,445

The Eagle mine is in Lander county, and all the others are in Eko county. The loss in converting the bars into money is over 12 per cent. But for the discount contained in the bars, the discount would have been still greater. There are not many departments of business that could stand up under such a shrinkage. The Grand Prize was incorporated on the 7th September, 1876. It has paid four dividends of \$100,000 each, the last one in February, 1878. The independence was incorporated eleven months later. It has paid six dividends of \$25,000 each, the last one in November, 1878. The Leopard is an old mine, having been incorporated in November, 1874. It has paid six dividends, amounting to 162,500, the last one being at the rate of 500 per share in December, 1876. The other mines in the list have paid no dividends. All have levied assessments. The Hussey was incorporated in May, 1875; Eagle, June, 1875; Argenta, December, 1876 and Navajo, August, 1877. The three dividend mines paid 712,500. The assessments collected by the seven mines aggregate 758,800.

POLITICAL POINTS.

The St. Louis Globe Democrat (Rep.) wishes Senator Chandler made Chairman of the Republican Campaign Committee for 1880. It says: "We do not believe he would do wrong, and what is much better than that, we know very well that if he should do wrong he will never be found out."

The Chicago Times (Ind.) says of the reception speech of Senator Logan at Washington that it is evident that "his two years' retirement have in no degree enlarged the General's statesmanship, nor cured him of the habit of belaboring the rebels and the American language on very small provocations."

The Savannah News does not think Mr. Tilden by any means the most popular candidate that could be presented in 1880, but says that if the National Democracy in convention assembled believe that the reason for his nomination outweigh all other, "the South will accord him once more an undivided support."

The Finance Committee of the Ohio House expects to save \$20,000 a year by stopping sundry small leaks, such as the expenditures for newspapers, ice, postage stamps, &c. The Auditor and his clerks, for instance, were found to use \$80 worth of ice, while \$94 worth sufficed for 178 legislators and the attaches of the two houses.

The Cincinnati Republican (Ind. Rep.) remarks of Mr. Logan's demand for Federal intervention when any of the States deny to their citizens constitutional rights: "When it is considered that he was the author of the infamous anti negro laws that once obtained the statute book of Illinois, it must be confessed that the times have changed, and Logan with them."

A St. Paul special to the Chicago Times (Ind.) says that Mr. Ignatius Donnelly's case (he is contesting the seat of Mr. Washburn) is a strong one. The Secretary of State to have dropped through an error some 300 votes from Donnelly's returns, and proof is adduced of some twenty different cases of bribery, besides such irregularities as occurred at Crookston, where, though the voting population was but 100, 264 votes were cast.

LIVELY STOCK OPERATIONS.

The current of recent events has given great impetus to business in Wall street, and many successful turns are reported where immense profits are made in short periods. The most successful way that we have heard of yet for operating in stocks is by the Combination Method of Messrs Lawrence & Co., Bankers, New York. By this system thousands of orders in various sums are pooled into one vast capital and operated under the most experienced and skillful management, thus securing to each shareholder superior advantages and profits, not possible in any other way. Profits are paid at end of 30 days. J. Jones, of Boston, made \$757.30 on an investment of \$100. Many others are doing as well or better. Capital in any amount from \$10 to \$100,000 can be used with equal proportionate success by this Combination or Co-operative Method. \$15 would make \$75, or 5 per cent. on the stock; \$100 would return \$900, or 9 per cent. during the month, and so on, according to the market. The new circular contains "two unerring rules for success" and full information, so that any one can operate with profit. Stocks and bonds wanted. Deposits received. Government bonds supplied. YESTERDAY'S STOCK REPORT.

Table with 2 columns: Stock Name and Price. Includes items like 100 Opbr, 35% 35%, 30 Mexican, 41 41%, etc.

Afternoon Board.

Table with 2 columns: Stock Name and Price. Includes items like 210 R & B, 6 1/2 6 1/2, 190 Jackson, 7 1/2 7 1/2, etc.

Building Items.

Good work is being done upon Osborn & Shoemaker's, and Mrs. Simpson's buildings. They will be the first ready for occupancy. Borden is about ready to commence plastering Jamison's store and post office. L. Richardson has taken the contract to repair Burke's brick. He is already at work. Barnetts have commenced rebuild ing. The wooden buildings on the east side of Virginia street are being put together rapidly. Mrs. Spencer will rebuild of wood next to Birk's. A pity! when we consider the opportunity to tack on to bricks on either side. Skull Broken. Yesterday afternoon Charley Gates, a well known pioneer, was kicked in the head by a newly shod horse, and it is feared fatally injured. He was taking the harness off the animal at the time, when something startled him and he suddenly kicked, hitting Charley in the head and breaking his skull. Dr. Bergman who was imbedately summoned, says the chances for recovery are slight. Property Transfer. M. C. Lake yesterday purchased of Alex. Forbes, for \$4,500, the flour ing mill property, which includes the water ditch. This settles the lawsuit that was pending to quiet title to the ditch. Mr. Lake will not build a mill, but will lease the property to any parties who wish to engage in that business. An elegantly carved heavy cased Elgin Chronometer, the finest watches made, a beautiful present for a lady, worth \$150, warranted for eight years, will be sold for \$70, at Uncle Harris', 221 Kearny Street, between Bush and Sutter.

Notes. The F. C. A. will immediately rebuild. Block has sold out to his partner, Morris Ash. The stock market exhibited signs of strength yesterday. Robert Leeper is putting a new coat of paint on the Pacific House. The new passenger and freight tariff on the V. & T. R. R. went into effect yesterday. Reno is without a photographer, Lovewell having removed his baronche to Carson. Yankee Didge will open a notion store here shortly. Adams, his first lieutenant, is here securing an eligible site. Abraham Brothers have an immense stock of goods ready for this market. They will begin the slaughter in a few days. The creditors of the estate of John Larcombe will find two advertisements of interest in this morning's paper. Read them. In the case of Parson vs. Clark, on trial in the Justice Court for several days, judgment was rendered for plaintiff for \$22 86. J. F. Cooke will rebuild on the corner of Virginia street and Commercial Row. The new building will be a nice one. Ab Choney's attorneys will carry his case before the Board of Pardoners. Ab Choney is indifferent about his fate, but persists in asserting his innocence. Our evening cotem, "does up" the bonduge of "Shon Peek," at the hands of the late Mrs. Beck. Guess you never saw that piece of skull which John packed around as conclusive evidence that she is under the cinders. Real Estate Transfers. The following transfers of real estate have been recorded since the 1st: Alvaro Evans to Mrs. L. M. Moe—Lot 5 in block 5, Evans Addition, for \$200. Patrick Keating and wife to Louis Treanor—Lot 5 in block U, for \$1,000. Reno Water Co. to Geo. Deremer—Lots 1 and 2 block 12, Western addition, for \$100. L. T. Heath to H. W. Roberts—80 acres near Verdi, for \$200. T. Holt to Catharine Biggs—East 12 feet of lot 18 in block H, for \$1. G. Thomas to Daniel Hutchinson—West 90 feet of lots 7 and 8, in block K, for \$350. J. McGinley and wife to Cunningham & Winchel—29 feet on west side Virginia street, for \$2,500. Tyrrell & Rees to Bank of California—40 acres of timber land, for \$20. A. P. Dallam to C. S. Martin—Lot 20 in block Q, 550. Emily E. Ooly to Mrs. Mary McGinley—Lot 11 and south half of lot 10, in block A, for \$1,700. M. Gillies to Mrs. Sadie Hunter—Lot 14, river front, for \$1,000. Annie G. ex to Miss. M. Seborn—Fractional lot 8 in block W, for \$600. Notice. Notice is hereby given that it is the intention of the under-signed tax payers of the town of Reno, to present a petition to the Board of County Commissioners of Washoe County, State of Nevada, to have said town incorporated according to the provisions of "An Act to provide for the government of the unincorporated towns of this State," passed at the last session of the Legislature of the State of Nevada. Signed. A. J. HATCH, FRED HUTCHINS, W. L. KNOX, F. J. WINCHEL, J. G. LAW, GEO. A. RANKIN. RENO, Nev., March 13th, 1879. Patronize Home Industry. J. L. McFarlin advertises that he is manufacturing quartz, freight and farm wagons of the very latest pattern. He will also repair any vehicle. Just now his specialty is iron doors and repairing those injured by the fire. Give him a trial, and patronize home industry. QUEEN, the druggist has received a fine lot of field and flower seeds, cheap for cash. GREY & ISAACS will resume business in Mrs. Simpson's building on Commercial Row. They expect to be open inside of a month. Mr. H. S. CROCKER, senior member of the well known of Crocker & Co., was in town yesterday. A squaw had her right leg and foot crushed by a train last Wednesday near Empire. She died.

The Water Supply. The contract to finish the west end of the Highland Ditch was signed yesterday. The contract time is sixty days. The ditch will be 11 1/2 miles long, four feet wide on the bottom and two feet deep, with a fall of four feet to the mile and will carry about 1,500 inches of water. The flumes will be very large, so that the capacity can be increased by simply shoveling out the ditch. A reservoir that will hold two months supply of water will be constructed above the seminary. It will be on a flat, and three sides will be an earthen embankment. The water will stand from six to eight feet deep. A pipe twelve inches at the mouth, gradually decreasing in size to eight inches, will bring the water to the town, where it will connect with the town system of pipes heretofore in use. The pipes will be laid deeper where it is necessary and all made solid for hard weather. New pipes will be laid on Commercial Row and many other parts of town. The Evans Brothers will have Reno well supplied with water in a very short time. Savings Bank. The advertisement of the Reno Savings Bank has been reconstructed in several particulars, as the reader will notice by perusing. The Savings Bank transacts all business needed to be done by an institution of that character in a satisfactory manner, and under the wise management of Jas. H. Kinkaid has made a reputation second to no bank in Nevada. Con. Esmeralda Assays. Superintendent S. T. Curtis took several pieces of Con. Esmeralda ore to Virginia last Wednesday and had them assayed. The results were, \$153 37; \$30 23; \$62 92. About one-third of each being in gold. Even the lowest of the assays indicates excellent rock. They have lots of that kind in the mine. Safes. The Diebold Morris & Co's safes are acknowledged the best in the country. They have been tried by fire and tried by burglars, and have stood both tests. The agency for Reno is at this office, where catalogue and price list can be seen. If you want a safe now is your time. There is a message in the Western Union Telegraph Office for William Warren. THE CONTEST FOR THE SPEAKERSHIP. A Washington dispatch of the 13th says the Democrats will hold their caucuses, to arrange for the organization of the House of Representatives, on Saturday evening next, but thus far the most persistent of their party engineers are unable to cast a horoscope of the result that is in any respect satisfactory. In the two or three days immediately preceding the opening of Congress there will be a scramble for pledges from both new and old members unequalled in the history of office-seeking. Messrs. Randall and Blackburn receive their friends at their respective headquarters and both seem equally sanguine of a final triumph. Mr. Randall's friends insist that it will not do to give the third office under the Government to an ex-Congressman, and meet the remark from the Blackburn men that Kentucky (his State) did not secede with reminder that although his State did not that Joe Blackburn did, and that his election will greatly endanger the hopes of the Democracy in the future. All indications to-right point to a bitter contest for the Speakership and already several gentlemen are being prominently mentioned as compromise candidates. Positive indications of alarm on the part of the Northern Democrats of the prospect of too bountiful distribution of the subordinate offices among ex-Confederates manifest themselves in many quarters this evening. Meanwhile the ambitious bands of office-seekers are constantly increasing in numbers. THE walking mania is suggestive to the caricature artists. One of the late New York pictorials has a representation of Henry Ward Beecher "on his 1,347th lap." He is being held in a loving manner by one of the female members of his congregation, his head resting upon her voluptuous bosom and his arm encircling her neck. THE police discovered two secret printing presses in St. Petersburg Thursday. Many arrests have been made in connection therewith. The San Francisco banks are opposed to the new Constitution.

THERE is now nearly one million dollars in silver coins stored away in the vaults of the U. S. Mint in Carson City. FOR THE SUFFERERS—S. Jacob has a large and varied assortment of piece goods and tailors' trimmings which he will make up at his usual low rates. Now is the chance for the sufferers to get good clothes at a bargain. He has put up a small building opposite Sunderland's boot and shoe store, on Virginia street, where he can be found. FOR SALE.—At the Reno Nurseries, Reno, Nevada, 100,000 fruit and shade trees, I will sell hereafter by the hundred for cash, at the Nurseries, for one half the usual price. STEPHEN CONNER. A. H. MANNING—Has received a car load of Cumberland coal, Cave Valley lime, plaster and hair. ALL KINDS OF CARRIAGES, SPRING Wagons, Rick Boards and Sulkies made and repaired. HARD WOOD AND IRON AXLES FOR SALE. SPECIALTY—Iron Doors and Repaired Those Damaged by the Late Fire. m14-1f SHERIFF'S SALE. BY VIRTUE OF AN ORDER OF SALE IS. Subscribed out of the District Court of the Second Judicial District, State of Nevada, in and for the County of Washoe, on the 13th day of March, A. D. 1879, and to me directed and delivered on a judgment and decree rendered in said Court on the 14th day of February, in favor of B. F. SELLERS, Plaintiff, and against M. T. O'NEALS et al., Defendants, in which decree there is found to be due to the Plaintiff, from said Defendants, the sum of twelve hundred, twenty-nine and 25/100 dollars (\$1,229 25) and interest as in said decree specified, together with costs and attorney's fees now amounting to one hundred and seventy-seven and 80/100 dollars (\$177 80), I am commanded to sell the following described real estate, or so much thereof as may be necessary to wit: The S. W. 1/4 of Sec. 29, T. 19, N. 40 E. 20 E., Mt. Diablo Base and Meridian, containing one hundred and sixty acres, according to U. S. Government survey, together with all and singular tenements, hereditaments and appurtenances thereunto in anywise appertaining, all of which is situated in Washoe County, State of Nevada. Notice is hereby given that on Saturday, the Fifth (5th) Day of April, A. D. 1879. Between the hours of 9 o'clock A. M. and 5 o'clock P. M., to-wit, at 1 o'clock P. M., I will sell all the above described property, or so much thereof as may be necessary, at the Court House door in Reno, in said County and State, at public auction, for cash in hand, to the highest and best bidder, to satisfy said judgment and decree, costs and necessary costs and expenses of this sale, all payments in United States gold coin. Dated Reno, March 14th, 1879. W. A. WALKER, Sheriff. NOTICE TO CREDITORS. NOTICE TO CREDITORS OF THE ESTATE of John Larcombe, deceased. Notice is hereby given that letters testamentary have been duly issued by the District Court held in and for Washoe County, in the Second Judicial District of the State of Nevada, to the undersigned as Executor of the Last Will and Testament of JOHN LARCOMBE, deceased, duly admitted to probate by said Court, and all creditors of said John Larcombe, deceased, are hereby notified and required to exhibit their claims against said estate with all necessary vouchers within ten months after the first publication of this notice, to the undersigned, at the storehouse of said deceased, in the town of Reno, County of Washoe and State of Nevada, to J. R. EMMETT, who is authorized by my agent to receive all claims against said estate. JOHN LEE, Executor. Reno, March 16th, 1879. SWORN EVIDENCE. The following Cure is probably the most remarkable ever effected by any medical preparation for the treatment of Catarrh: Gentlemen.—I hereby certify that I have had Catarrh for ten years, and for the last six years have been a terrible sufferer. I was rendered partially deaf, had buzzing in the head, pains across the temples, dizzy spells, weak and painful feet, vertigo and dizziness, and constant cough, severe pain across the chest, and every indication of consumption. My head ached all the time. The matter accumulated in my head and throat, and I could not keep it from me. Frequently at night I would spring out of bed, it seemed to me, at the point of suffocation. I would then have recourse to every means I my power to dislodge the mucus from my throat and in at before being able to get up in the morning. For a host of years I was in this condition, and at last I was cured. I consulted an eminent surgeon in my regard, and he advised me to use a cathartic, but at his request postponed it. The constipation, however, was so severe that I was obliged to use a cathartic, and I was cured. I am now perfectly well, and I am able to do my usual work. I am now prepared to sell all goods in my line at GREATLY REDUCED PRICES. My stock surpasses anything ever offered in this market for its Designs, Colors, Quality, Etc. AND THE Prices are Made to Suit the Times. Please call upon me before purchasing elsewhere and you will save money. COLLINS' VOLTAIC PLASTER Affords the most grateful relief in all Affections of the Chest and Lungs. CHRONIC PLEURISY CURED. Messrs. WEEKS & POTTER: Gentlemen.—Having for many months past suffered with a very lame side, called by my physician Chronic Pleurisy, caused by a former injury and strain, which I used many prescriptions and liniments, as well as the so-called rheumatic cures, without the least benefit, my physician recommended one of your COLLINS' VOLTAIC PLASTERS, which, to my great surprise, relieved the pain and soreness almost immediately, and I have been able to attend to my household affairs ever since with perfect ease and comfort, whereas, before the application of your Voltaic Plaster, I was scarcely able to do anything. I consider them invaluable, and with pleasure I commend them to the afflicted. Yours respectfully, Mrs. FRANCES HARRIMAN. Chelsea, Mass., April 13, 1879. There is no medical or protective appliance that will prove so grateful and effective in relieving Coughs, Irritation and Soreness of the Chest and Lungs. We believe them capable of preventing serious diseases of these organs. PRICE, 25 CENTS. Do not confound these Plasters with the ordinary Plasters of the day, that by comparison are absolutely worthless. Beneficial in obtaining COLLINS' VOLTAIC PLASTER, a combination of Electric and Voltaic Plaster, with a highly Medicated Plaster, as seen in the above cut.
